

Protected Acute Stroke Protocol (Suspected or Confirmed COVID-19)

- Rules:**
1. If patient can't be cleared for COVID-19 because of aphasia or other deficits then assume COVID-19 positive.
 2. Yellow mask and clean sheet remains on patient throughout this process.
 3. Clean PPE only stays clean if not touching dirty bed or patient, ideally 2m distance.
 4. Mask and face/eye shield on everyone at all times.
 5. MD or ED nurse gives TNK.
 6. Dirty HCW must not touch clean things, including buttons to open doors.
 7. Clean HCW acts as a "clean runner", opens doors, etc.
 8. Once patient or patient stretcher is touched, you are dirty.

Stroke MD	ER Nurse	EMS	Switch Board	Pager	TNK	CT Tech	IVR Team	Clean PPE	Dirty PPE
