Each Patient Journey

Navigation across Transitions

Structures and processes
Information flow, linkages

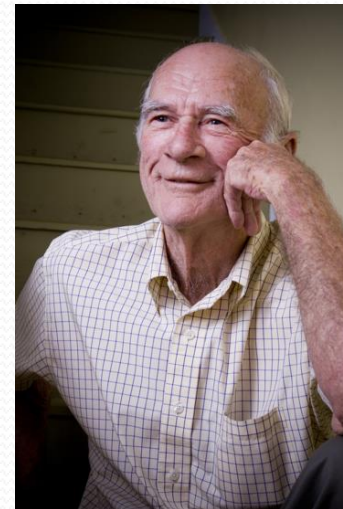

People – each one of us

What does this landscape need most?

Voice of Patients, Families, Stroke Survivors

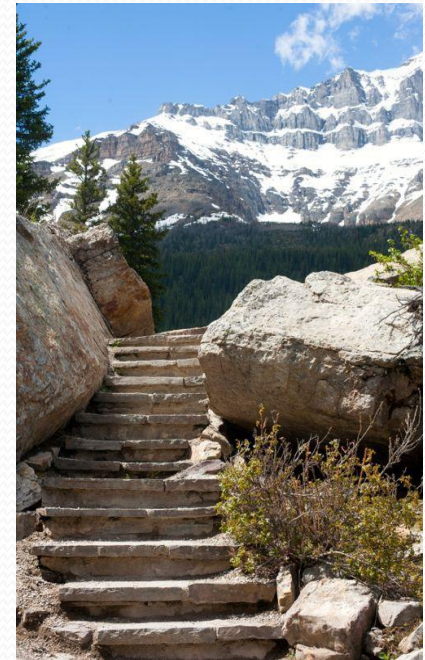

*Listen
"Be patient,
do not rush..."*

*Unexpected insights come from calling on
varied perspectives*

Regional Stroke Workplan Priorities 2019-2021

1. **Primary and Secondary prevention - links**
2. **Hyperacute care: EVT & Thrombolysis**
3. **Support Bundled Care: Acute to Rehab to Community Transitions**
4. **Sustain gains; continue to build expertise and capacity**

THANK YOU!

“It’s that team approach and dedication to patient care that creates a positive and lasting impact for our patients and their families.”

Dr. Al Jin, Stroke Neurologist

Thank you for
your part in
painting a
better
landscape for
each person
on this
journey!
