# APHASIA CONVERSATION GROUP

## What is Aphasia?

Aphasia refers to one of the communication disabilities that can occur after **stroke**, **brain injury**, or **brain disease**. It may be **hard to talk**, to **understand** spoken words, to **read** and to **write**.

## A person with Aphasia

- Knows what he/she wants
- Can make his or her own decisions
- Is a competent adult
- Aphasia **masks** a person's inherent competence

**APHASIA is**  
when your brain holds  
your words hostage.

## People affected by Aphasia are at risk for:

- Social Isolation
- Depression
- Aphasia-related abuse

## Benefits of Aphasia Support Programs

- Meet other adults living with Aphasia and practice your communication skills in a fun, stimulating environment
- Engage in interesting adult topics despite Aphasia
- Improve your conversation skills and confidence

## Aphasia Conversation Group

The Aphasia support group is run by a Speech/Language Pathologist with the assistance of community volunteers or Communicative Disorders Assistants.

- Maximum of 6 participants per group
- Conversation topics include sports, politics, hobbies, music, local events

## If you are a Caregiver of a Stroke Survivor with Aphasia:

CCSH does offer Caregiver Support Groups on a monthly basis. Call Lorraine for more information about times and dates. (613) 969-0130 X 5207
