

Returning to Work in HPE

Services for persons with stroke preparing to re-enter the workforce

You've been through a lot – a trip to the emergency department, a hospital stay, rehabilitation and a return to your home, your family and your community. Recovery from stroke is a journey. For some people, that journey includes a return to the workplace – either to their previous role, a modified position or something entirely new. The following services are available to stroke survivors in Hastings and Prince Edward Counties who are exploring a return to work. Eligibility for each program must be determined on an individual basis. Please contact program for further details.
